

RP-14

Electromechanical pressure switch

Quality / Technology / Service / Value

Recommended for:

Type RP-14 is the standard water pump pressure switch, suitable for all types pump: Centrifugal, Peripheral, Jet, Submersible, Reciprocating, Etc.

Proven Reliability

Functions and Benefits

The "RP-14" type pump pressure switch comes with the following Features:

- * Removable cover with a captive screw to ensure no screw loss during installation.
- * Ample wiring space for easy connection.
- * Diaphragm-actuated contacts for smooth system operation.
- * Adjustable cut-in and cut-out pressure to meet your system requirements.
- * High-impact molded cover for enhanced durability and extended lifespan.
- * CE certified.

In addition to a high-quality product, we also offer:

- * A "2-year" industry-standard warranty.
- * Ready availability for shipment (stocked in warehouse).
